Show Your Colours: Come with us to Christopher Street Day in Cologne

Once again this year, the management is delighted to invite all our staff to make a stand in favour of inclusion and against discrimination by taking part in the Christopher Street Day demonstration on Sunday, 6 July in Cologne.

Join in!

Pride Parade: Colourful, Joyous, Inclusive

The CSD demonstration on 6 July won't just be the highlight of the street festival being celebrated in Cologne's old town, but also one of the most enjoyable and, with some 1.4 million visitors, one of the largest demonstrations of its kind, as well. We are not promising too much when we say the event will be a joyous and colourful one.

And you can be right there in the thick of it – and not just as a spectator! That's because VebeGo will be showing its colours and joining the parade with a VebeGo VW bus that we hope will be accompanied by many members of our staff.

Online Registration Form

"As we have to let the organisers know how many people will be coming along with us to the parade, we ask all interested members of staff to register with us," says Annette Sund, Head of People & Culture Projects/Employer Branding. "Family members and friends are also welcome to come along with us. Food and drink will be provided. Participation and travel to and from the demonstration will be done in your own private time and not remunerated."

Register by 30 June.

Please use the registration form to sign up your family and friends and yourself. The QR code takes you straight to the form.

Participation is free of charge!

Our organisers will send you details of the time and place of meeting in the week before the CSD.

Photos of last year

Cobotic: Rollout of the Nexaro Robot Vacuum Cleaner to Customers

This year, 160 Nexaro robot vacuum cleaners will start working for our customers. The first vacuums will be installed at a customer's early next year by Regional Manager Raphael Blank and Technical Manager Marc Schroeder from our Wuppertal branch, which has already planned the rollout of 80 Nexaro vacuum robots to customers over the next few weeks. The other Vebego companies in Europe will also be rolling out the Nexaro to their customers.

"We are delighted that the robots have proved so popular with both our customers and our staff. Offices and open spaces, especially, are often ideal areas for using vacuum robots thanks to the freedom of movement they offer. The robots are used mainly in circulation areas because that's where we see the greatest added value," says Blank.

Robot helps cleaning staff with the laborious chore of floor cleaning

Vebego will be continuing to develop the partnership we entered into with Nexaro in 2018 because we understand the usefulness of the Cobotic approach taken by Nexaro. Cobotic describes the collaboration between human being and robot. The Nexaro robots assist the cleaning staff by relieving them of heavy job of floor cleaning. This leaves staff free to concentrate on performing more challenging tasks. This guarantees a consistently high standard of cleaning and optimises processes.

Celebrate Special Occasions

Whether it's an anniversary or employee of the month, we like to celebrate the special moments in working life together. Take Martin Falkner, who works as a glass, building and specialist cleaner and was named by his area manager, Steven Nabrotzki, as employee of the month in Berlin, for example, or Klaus Schlage of the Erfurt branch, who celebrated his 10th anniversary at Vebego with his co-workers. If you also celebrate with your co-workers and would like to see your photo of you all here, feel free to send in your pictures by email to the Hi! editorial team.

Committed to Diversity and Family Friendliness

Vebego is now a member of the networks Diversity Charter (Charta der Vielfalt) and Success Factor Family (Erfolgsfaktor Familie).

The Diversity Charter is an initiative to promote diversity in companies and institutions.

As a signatory to the charter, Vebego undertakes to create a working environment that is free of prejudice and also to foster a climate of acceptance and mutual trust. The aim is for all employees to experience respect regardless of their sex, nationality, ethnic background, religion or world view, disability, age, sexual orientation and identity.

The Success Factor Family initiative of the German Federal Ministry for Family Affairs, Senior Citizens, Women and Youth promotes

family-friendly HR policies. Vebego actively works to enable its staff to achieve a good work-life balance.
